**NOTES TO FINANCIAL STATEMENTS**  
December 31, 2009

**NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Organization and Description of Business: Nationwide Planning Associates, Inc. (the "Company"), is a New Jersey Corporation formed in October 1992. Its principal business activity is selling mutual funds, variable annuities and insurance products in the New York City metropolitan area.

The Company is a securities broker-dealer registered with the Securities and Exchange Commission ("SEC") and the Financial Industry Regulatory Authority ("FINRA").

The Company does not carry customer accounts or perform custodial functions relating to customer securities. Customers of the Company are introduced to a carrying broker-dealer (clearance agent) on a fully disclosed basis.

Cash and Cash Equivalents: The Company considers all cash and money market instruments with a maturity of ninety days or less to be cash and cash equivalents.

The Company maintains its cash accounts in high credit quality financial institutions. Balances at times may exceed federally insured limits.

Office Furniture and Equipment: Office furniture and equipment are recorded at cost. Depreciation is provided by use of the straight-line method over the estimated useful lives of the respective assets ranging from five to seven years.

Income Taxes: The Company is taxed as an S corporation. Therefore the income or losses of the Company flow through to its stockholders and no income taxes are recorded in the accompanying financial statements.

Estimates: Management uses estimates and assumptions in preparing financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets, liabilities, revenues and expenses. Actual results could vary from the estimates that were assumed in preparing the financial statements.

Securities Transactions: Customer's securities transactions are reported on a settlement date basis, generally the third business day following the trade date. The effect of recording these transactions at settlement rather than trade-date basis is not material.

**NATIONWIDE PLANNING ASSOCIATES, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
December 31, 2009

**NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Accounts Receivable: Accounts receivable are non-interest bearing uncollateralized obligations receivable in accordance with the terms agreed upon.

The carrying amount of accounts receivable is reduced by a valuation allowance that reflects management's best estimate of the amounts that will not be collected. Management individually reviews all delinquent accounts receivable balances and based on an assessment of current creditworthiness, estimates the portion, if any, of the balance that will not be collected. Generally, accounts receivables are believed to be fully collectible; accordingly, no allowance for doubtful accounts is reflected in the accompanying financial statements.

**NOTE B – NET CAPITAL**

The Company, as a registered broker dealer is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2009, the Company had net capital of \$129,929, which was \$79,929 in excess of its required net capital of \$50,000 and its ratio of aggregate indebtedness to net capital was 1.36 to 1.0.

**NOTE C – OFF BALANCE SHEET RISK**

In the normal course of business, the Company's customers execute securities transactions through the Company. These activities may expose the Company to off balance sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL ACCOUNTING CONTROL  
REQUIRED BY RULE 17a-5**

To the Stockholders  
Nationwide Planning Associates, Inc.

In planning and performing our audit of the financial statements of Nationwide Planning Associates, Inc., for the year ended December 31, 2009, we considered its internal control structure, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission, we have made a study of the practices and procedures (including test of compliance with such practices and procedures) followed by Nationwide Planning Associates, Inc., that we considered relevant to the objective stated in Rule 17a-5(g). We also made a study of the practices and procedures followed by the Company in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and the procedure for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company related to the following: (1) in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13; (2) in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System; and (3) in obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2009 to meet the Commission's objectives.

This report recognizes that it is not practicable in an organization the size of the Company to achieve all the division of duties and cross-checks generally included in a system of internal accounting control, and that alternatively, greater reliance must be placed on surveillance by management.
